

Hi.

There are so many needs that we constantly are met with, either in our own lives or in the lives of others. Well Gateway would like to do something to meet some of those needs. We have a community of people who have willingly put their hand up to serve our community.

How can we do this? By seeing a need and filling it. ☺ If you or someone you know has a need that we could in some way help with, please let us know. The first Saturday afternoon of every month will be a time dedicated to mowing lawns, cleaning, cooking, babysitting, home maintenance, painting and anything else that we can put our hands to help. But we cannot do this without your help. So, let us know what the need is, fill out the form and contact me. We will endeavour to meet the need. We look forward to filling the needs within our school, campus church and community.

1. What's the need? _____
2. How many people needed? _____
3. Is there a cost? \$ _____
4. Approximately how long will it take? _____
